EDUCATION

WESTERN INSTITUTE OF TECHNOLOGY La Paz, Iloilo City, PH
BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY *Expected May 2027*

ILOILO NATIONAL HIGH SCHOOL-SHS La Paz, Iloilo City, PH
GENERAL ACADEMIC STRAND (GAS) *Graduated July 2023*

TECHNICAL PROJECTS & ARCHITECTURES

PAWADOPT - STRAY RESCUE & ADOPTION PLATFORM pawadopt-main.vercel.app
Sole Developer & Systems Architect *January 2026 - Present*

- Independently architected, designed, and developed an end-to-end multi-portal web platform (Citizen, Shelter Admin, and Local Government Unit) digitizing municipal stray reporting, rescue dispatch, and adoption workflows across Iloilo City.
- Leveraged modern AI developer tooling (Antigravity) to rapidly scaffold frontend components and prototype UI views, maintaining full ownership over system architecture, database design, and user experience.
- Integrated an interactive mapping interface with Mapbox GL JS, allowing citizens to drop precise GPS location pins for rescue sightings, validated against municipal boundaries.
- Implemented real-time operational rescue boards utilizing Supabase Realtime WebSocket channels, automatically reflecting report status changes without requiring page reloads.

BSIT STUDENT ATTENDANCE SYSTEM PERN Stack - WIT
Front-End Developer *2026*

- Engineered responsive React client interfaces for a PERN stack attendance verification and logging web application.
- Built high-speed student ID input verification and real-time confirmation UI, actively utilized by 300-500 BSIT students during assemblies and academic events.
- Implemented export functionality enabling users to download complete morning and afternoon attendance session records.
- Implemented client-side validation logic and real-time state handling to eliminate manual paper rosters.

OFFICIAL WEBSITE OF BSIT WIT witpsits-webapp.vercel.app
Front-End Developer *March 2026 - August 2026*

- Co-developed and maintained the official web platform for the Western Institute of Technology BSIT program, serving as the central digital hub for departmental resources, announcements, and events.
- Scaffolded application structure and responsive front-end UI architecture.
- Employed AI-assisted workflows to translate design requirements into responsive React and Tailwind CSS components, ensuring clean mobile and desktop layouts.
- Collaborated within an agile student developer team using Git branch management, actively participating in bug fixes, component refactoring, and UI performance maintenance.

LEADERSHIP & ACTIVITIES

PSITS - WESTERN INSTITUTE OF TECHNOLOGY CHAPTER La Paz, Iloilo City, PH
Core Developer *March 2026 - August 2026*

- Scaffolded front-end component architecture and layout templates for departmental student platforms.
- Maintained student-facing web platforms, resolving UI rendering bottlenecks and improving responsive mobile layouts.
- Championed structured Git version control standards, branch conventions, and pull request workflows across student-led project teams.
- Co-organized collaborative technical sessions and onboarding on front-end workflows, React component design, and reproducible local setups.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP, SQL
Frameworks & Libraries: React 18, Tailwind CSS, Vite, PostCSS, Mapbox GL JS
Cloud & Backend BaaS: Node.js, PostgreSQL, Supabase (Realtime, Auth, Database), MySQL, Vercel
Developer Tools: Git, GitHub, VS Code, Antigravity, Postman, Chrome DevTools, npm/pnpm
Methodologies: Single-Page Applications (SPA), Agile Collaboration
